USTOMED TITAN-PIN-SET

68-780-018

Titan-Pin-Set, consisting of:

SET INCLUDES:

TITAN-PINS

68-620-003

Titan-Pins, 3 mm, 10 pcs.

INFO

Suitable mallet
67-660-150 (see page 98)

APPLICATOR

- Single-piece instruments to collect the pins from the holding tray therefore the twisting of the working tip during the operation is excluded.
- Very ergonomical and comfortable Grip for a safe operation of the Titan-Pins.

68-650-000

Titan-Pin-Applicator, 15,5cm

HOLDING TRAY

- safe and easy to operate with single hand principle
- Box can contain up to 15 Titan-Pins

68-720-008

Box for 15 Titan-Pins

68-780-016

Bone-Fixation-Set, Titan
Ø 1.2/1.4/1.6 mm, consisting of:

COMPONENTS:

68-720-002	Box for Micro-Screws, Ø 1.0/1.2/1.4/1.6 mm
68-740-002	Screwdriver, 11 cm
68-760-102	Blade, cross, self-retaining, for Ø 1.0/1.2/1.4/1.6 mm Screws, 60 mm
68-510-014	Pilot drill, Ø 1.0 mm, 14 mm
68-512-014	Pilot drill, Ø 1.2 mm, 14 mm
68-112-008	Micro-Screws, cross, Ø 1.2 mm, 8 mm, 10 pcs.
68-115-004	Membrane Screws Ø 1.5 x 4 mm, selfcutting, Titan

MATCHING ITEMS:

Accessories:

68-720-002	Box for Micro-Screws for Micro-Screws, Ø 1.0/1.2/1.4/1.6 mm
68-740-002	Screwdriver, 11 cm
68-760-106	Blade, cross, self-retaining, short, for Contra-Angle, Length: 27 mm
68-760-102	Blade, cross, self-retaining, for all Ustomed Screws, Length: 60 mm

Pilot Burs:

68-510-014	Pilot Burs, Ø 1.0 mm, 14 mm
68-512-014	Pilot Burs, Ø 1.2 mm, 14 mm
68-514-014	Pilot Burs, Ø 1.4 mm, 14 mm

Micro Screws (10 pcs. per Pack):

68-112-006	Micro-Screws, cross, Ø 1.2 mm, 6 mm
68-112-008	Micro-Screws, cross, Ø 1.2 mm, 8 mm
68-112-011	Micro-Screws, cross, Ø 1.2 mm, 11 mm

68-780-010

Bone-Fixation-Set,
Implantat Steel

COMPONENTS:

68-720-002	Box for Micro-Screws, Ø 1.0/1.2/1.4/1.6 mm
68-740-002	Screwdriver, 11 cm
68-760-102	Blade, cross, self-retaining, 60 mm length, for 68-740-002
68-508-014	Pilot drill, Ø 0.8 mm, 14 mm including laser-etched depth mark
68-110-011 S	Micro-Screw, Steel, Ø 1.0 mm, 11 mm, Implant-Steel alloy

MATCHING ITEMS:

Accessories:

68-720-002	Box for Micro-Screws, Ø 1.0/1.2/1.4/1.6 mm
68-740-002	Screwdriver, 11 cm
68-760-106	Blade, cross, self-retaining, 27 mm length, for Contra-Angle Handpiece
68-760-102	Standardklinge, sefl-retaining, for all Ustomed Screws, Length: 60 mm

Pilot Burs:

68-508-014	Pilot Burs, Ø 0.8 mm, 14 mm including laser-etched depth mark
68-510-014	Pilot Burs, Ø 1.0 mm, 14 mm

Micro-Screws (10 pcs. per Pack):

68-110-008 S	Micro-Screw, Steel, Ø 1.0 mm, 8 mm, Implant-Steel alloy
68-110-011 S	Micro-Screw, Steel, Ø 1.0 mm, 11 mm, Implant-Steel alloy
68-110-013 S	Micro-Screw, Steel, Ø 1.0 mm, 13 mm, Implant-Steel alloy

BOX FOR MICRO SCREWS AND ACCESSORIES

- Sophisticated and functional Design
- Integrated ruler for the exact determination of screw and graft lenghts (removable)
- Newly-developed Material by Aerospace Engineering - THERMOSTABLE
- All parts are suitable for machine processing in the thermo-disinfector as well as for all conventional methods, thus corresponding to the latest „RKI - Guidelines“
- Collection tray for all Ustomed screw sizesdiameter (1.0 mm to 1.4 mm)

SCREW DRIVER

- perfect handle lenght – therefore suitable for all hand sizes
- The ergonomic handle allows a comfortable and fatigue-free operation
- Self-holding mechanism for collecting screws

INNOVATIVE GEOMETRY OF THE MICRO SCREWS

- Precisely milled cross-slit screw head
- all screw types (1.0 mm bis 1.4 mm) are to be collected with the same blade
- Fast and safe collection of the self-holding micro screws
- Extreme friction between screw head and blade, prevents wear-and-tear
- Much easier removal of debris from the cross-slit (in comparison to inner four-edge or Torx)

Photo: Dr. Jan Kielhorn

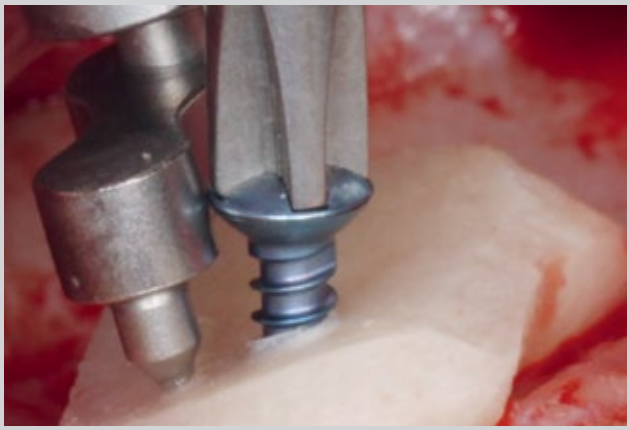

Photo: Dr. Stephan Beuer, M. Sc.

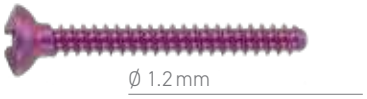
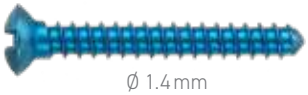
TITANIUM MICRO SCREWS

– diameter: 1.2 mm / 1.4 mm

– length: 6 mm / 8 mm / 11 mm / 13 mm



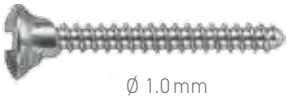
Ø 1.2 mm



Ø 1.4 mm

IMPLANT-STEEL ALLOY MICRO SCREWS

- diameter: 1.0 mm
- length: 8 mm / 11 mm / 13 mm
- perfectly suited for very small bone grafts and 3D-Augmentations
- special alloy material prevents Osseointegration and therefore a dramatically reduced danger of breaking the screws in comparison to titanium screws of similar lenghts



Ø 1.0 mm

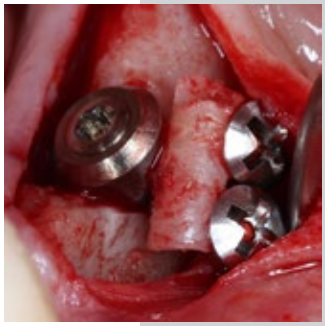
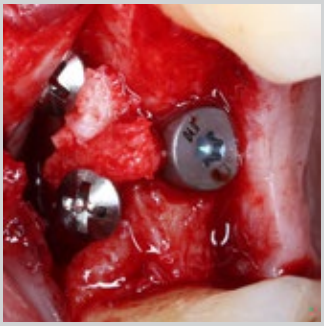
T-FIX MEMBRANE SCREW

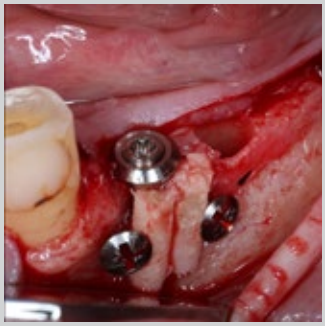
- conical threat
- lenght: 4 mm
- self-cutting/self-drilling, no pre-drilling
- perfect for applications in strong cortical bone
- for PTFE and titanium-reinforced membranes

Ø 1.5 mm, 10 pcs.

68-115-004







Pictures: MUDr. MDDr. Ph.D. Jiří Blahák

T-FIX MEMBRANE SCREW

Ø 1.5 mm, 10 pcs.

- For Carrot technology
- Tapered thread
- Length: 5 mm
- Self-tapping, self-drilling; therefore, no pre-drilling required
- Perfect for hard, cortical bone

68-115-005

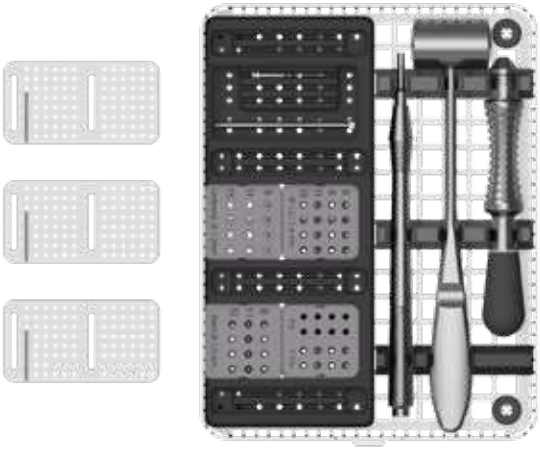
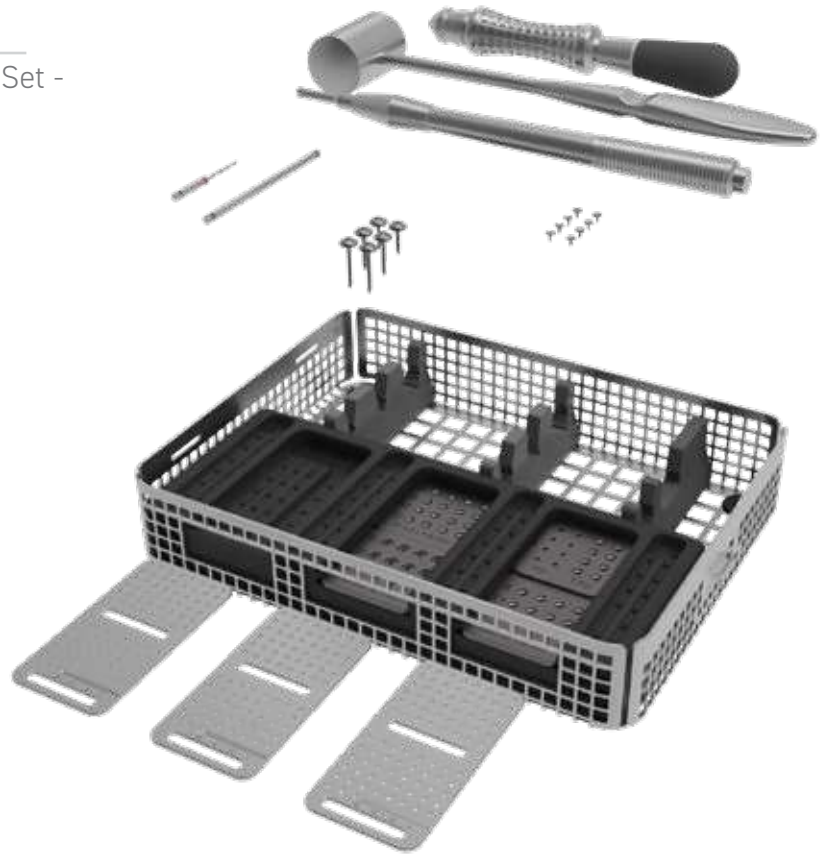
10 x steel screws, 1.0 / 11 mm
10 x titanium pins, 3 mm
1 x hammer
1 x screwdriver
1 x blade for holding screws
1 x pin applicator
1 x pilot drill bit: 0.8 mm
1 x washing sieve



68-780-000U

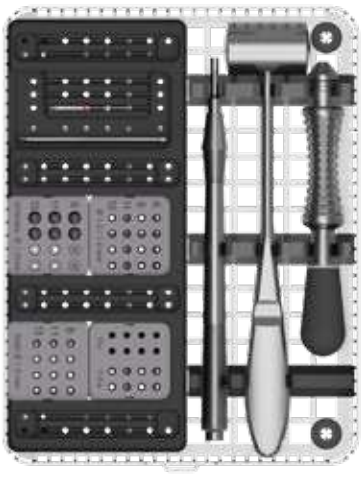
USTOMED Augmentation Set - Umbrella ®
tenting and membranes

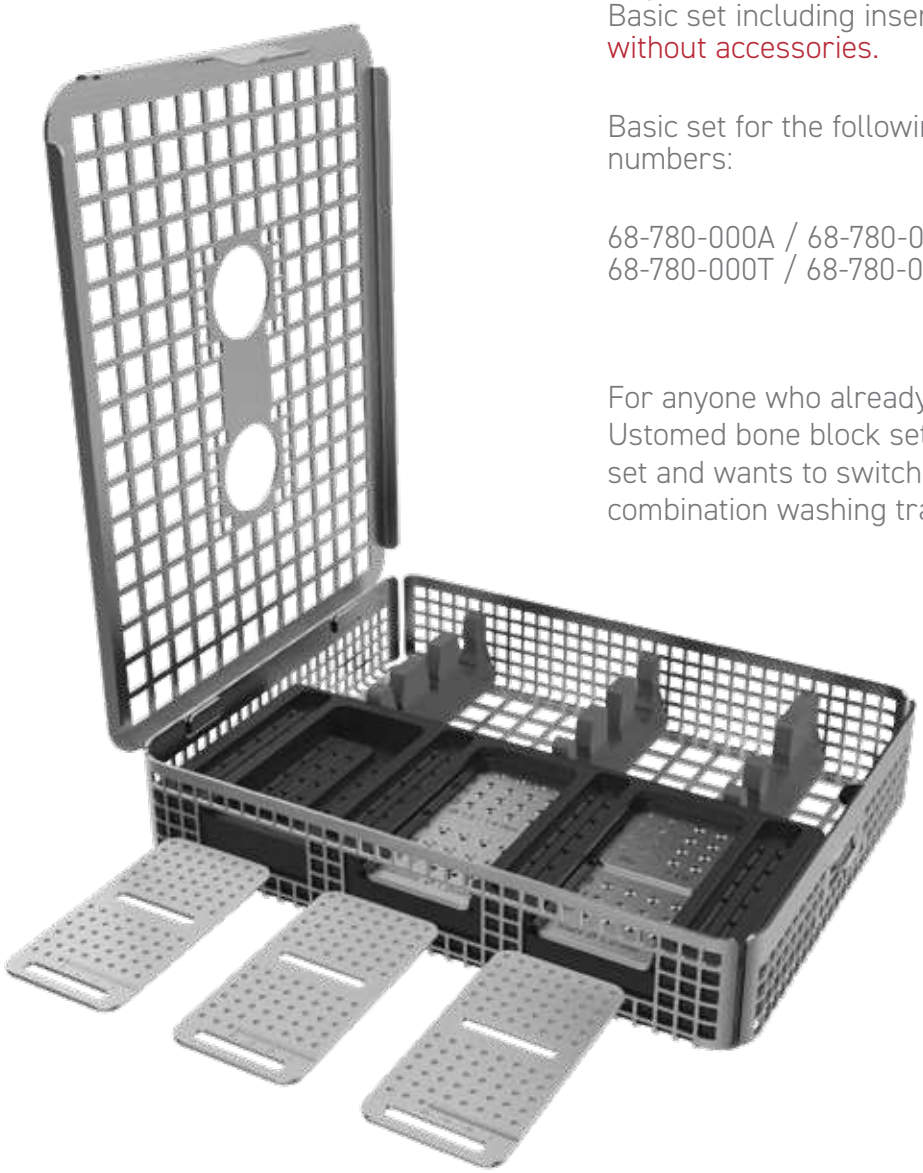


COMPONENTS

68-780-000U

10 x titanium screws, 1.2 / 8 mm
10 x T-Fix screws
10 x titanium pins, 3 mm
1 x hammer
1 x screwdriver
1 x blade for holding screws
1 x pin applicator
2 x pilot drill bits: 1.0 mm / 1.2 mm
1 x washing sieve





68-724-000

Augmentation Set Storage Box
Basic set including inserts
without accessories.

Basic set for the following part numbers:

68-780-000A / 68-780-000S /
68-780-000T / 68-780-000U

For anyone who already owns a Ustomed bone block set and/or pin set and wants to switch to the new combination washing tray!

Info

The „BLACK SPINE“ handle series features the special material PEEK (polyether ether ketone). This is a high-performance thermoplastic known for its exceptional mechanical, thermal, and chemical

properties. It is used in highly sensitive surgical procedures, such as spinal implants. This example has inspired us, for the name-giving of this extraordinary instrument series.

Why PEEK?

+ biocompatible and ideal for use in and on the human body
+ heat-resistant, acid-resistant, and X-ray neutral
+ non-degradeable, abrasion-resistant and corrosion-free

Info

Sterilization Container with permanent filter!

Dental Sterilization-Container System with Safety-Filter

Ustomed's answer to consistently increasing demands for risk minimization, environmental protection and handling comfort, is the newly-developed Easy-Stop System. The filterless mechanism stops microorganisms even more effectively than conventional filter systems and can be re-used as often as you like. There is no need for consumable purchasing. To open or close, one handling step is enough: Simply, press the lid down, and turn!

The Advantages speak for themselves:

The unique lid is almost indestructible:

- It is precision-milled from a solid block of aluminum. That way, the lid stays in shape and can withstand the daily office routines.
- Dirt- and germ-repellent
- Fast and residue-free drying during steam-sterilization
- High quality material for triple safety: adhese-free, pore-free and corrosion-free

Info:

The two-piece aluminum insert in the lid serves as a germ barrier according to the principle of the „Pasteur Loops“. By forming a labyrinth of ring ribs, it therefore reliably separates microbes, germs and particles. The meandering flow path achieves a decontamination rate of 99.997%

DR. RICARDO KERN

We are proud to present the **Soft Tissue Tunneling Set**, developed by **Dr. Ricardo Kern**, one of Brazil's most renowned dentists. Dr. Kern specializes in the sophisticated design and reconstruction of soft tissue and has extensive experience in immediate implantation with provisional restorations, ranging from single-tooth cases to full-mouth rehabilitations.

This exclusive set includes five precisely crafted instruments specifically designed for tunneling soft tissue in dental procedures. With these high-quality tools, you can provide your patients with precise and comfortable treatment, whether for

routine procedures or more complex surgeries. These instruments support you in making your work more efficient and effective.

Trust in the expertise of Dr. Ricardo Kern and expand your dental instrument collection with the **Soft Tissue Tunneling Set** to deliver outstanding results for your patients.

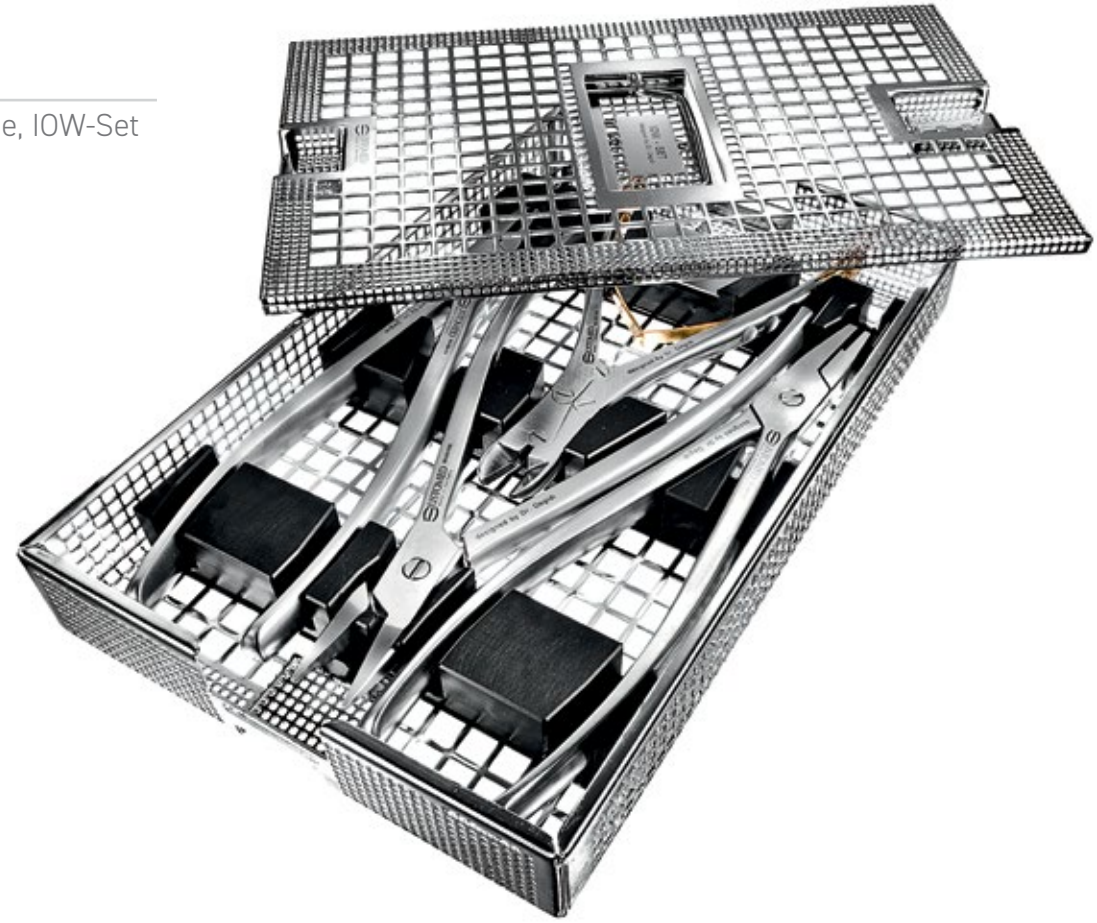
WelOne, IOW-Set

91-110-000

Degidi, WeldOne, IOW-Set



Components:

99-089-050

DEGIDI, wire-bending pliers Flat-nose pliers, smooth, 20 cm

99-089-051

DEGIDI, wire-bending pliers, R3, 20cm

99-089-052

DEGIDI, wire-bending pliers, R8, 20cm

89-597-180

Wire-cutting pliers, straight-cut, 18 cm, HM

99-090-402

3 black plastic spacers

90-716-000 V

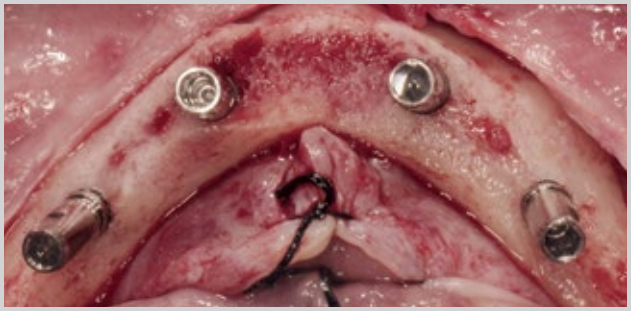
Wash Basket

99-091-401

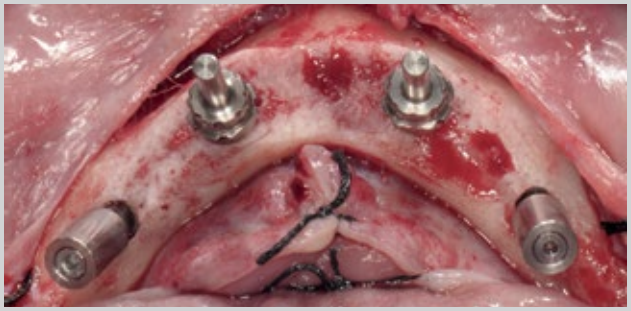
6x black silicone feet

Detailed information:

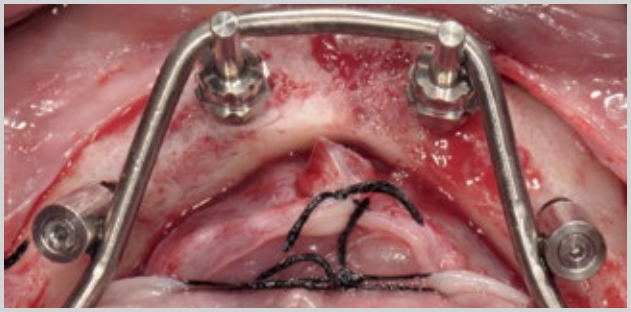
www.dentsplyimplants.com



Four implants are placed in the intraforaminal region.



Welding abutments in position.



Intra-orally welded framework.

Welded framework removed and reinforced.

Final restoration.

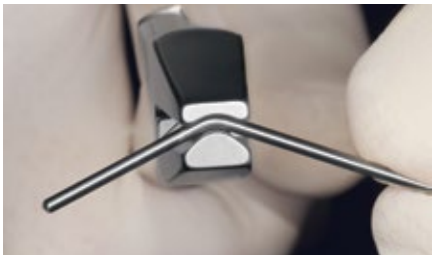
Post-op X-ray.

Sharp Curver

bends the bar into more acute angles for single abutments.

Soft Curver

bends the titanium bar along the curve of the arch.



Holder

grasps and holds the titanium bar firmly in place during the welding process.

Cutter with tungsten carbide inserts

easily and efficiently cuts off excess material.
